Finance institute

The Indian Institute of Finance (IIF) has emerged as a leading centre of excellence in the field of finance. The programmes offered at the IIF are innovative in the field of management with high speciality in finance. These programmes are not offered by any university or institute in the country. The IIF offers as many as 36 courses in finance. The programmes are designed innovatively with curricula at par with MBA of international standards based on Indian and international experiences. These are designed to reap the fruits of first-rate education and to meet the challenges of the exciting years that lie ahead. The IIF programmes have high standards, are intellectually stimulating, analytical and have practical bias.
