Prof. Dr. hab. J.D. Agarwal
Born on 15th January, 1948
in Raipur Rani, Ambala, Haryana, INDIA

Prof. Agarwal was born in Raipur Rani (Ambala District) in Haryana to a humble family. He studied in Raipur Rani till Class 3rd under shade of a tree. He moved to Delhi to study at Jain Higher Secondary School, Daryaganj where he also served as Captain of NCC. He pursued Graduation in Commerce from Ramjas College (University of Delhi). Henceforth he pursued his Masters in Commerce and Masters in Economics from the Delhi School of Economics. He completed his Ph.D. from Delhi School of Economics from the Department of Commerce, University of Delhi in Finance.

Dr. Agarwal came from a simple humble family, though a affluent ancestral background with his great grand father being one of the Industrialists and Money Lender to Kings in the then Punjab in the 1800s. His family was famous for philanthropic activities and social works. The family became famous as “Wazir’s family of Raipur Rani”. His father Lala Jyoti Sarup Agarwal (late) lost his father at a very young age of 13 years. Most of the wealth of his father was looted away by his relatives leaving them with Haveli’s and few other physical assets. Incidentally one of townships called “Dhanaura” is after his great grand father’s name in Ambala district. Prof. Agarwal’s mother Shrimati Ramkali Agarwal (late) was a pious women full of love and affection. She started a training school for girls and women in the village for skill development programs in the early 1900s providing education for free to enable them be empowered to run their family independently and have better standard of living. Prof. Agarwal moved to Delhi when he was 9 years old along with family which included parents, 5 sisters and 3 brothers including him. They lived in Chandni Chowk (old delhi - walled city) in a small room of 8x8 sq feet only till his getting a job in University of Delhi (SRCC) after his completion of Masters in Commerce.

Dr. Agarwal was an eminent Distinguished Senior Professor of Finance. He was the founder Chairman and Director of Indian Institute of Finance and also the founder Editor-in-Chief of Finance India (Quarterly refereed journal of Finance). He had been a leading economist and financial expert with extensive contribution to the field of financial economics through his theoretical fundamental research work, quantitative models and socio-economic research contributions. Many of which have seen light of the day with Governments and International Agencies implementing decisions based / influenced from his publications, public addresses, press interviews and research contributions.

Prof. Agarwal was nominated by the Honourable office of The President of India as the Visitor’s (President of India) Nominee in University of Delhi and also Pondicherry University Court. He had also served as a member of committees in the Department of Revenue, Ministry
of Finance, Government of India. He was nominated director by Reserve Bank of India on the
Board of State Bank of Patiala (constituent bank of State Bank of India). He served various
committees, member of academic councils, selection panel of various universities and member
of Editorial board of various journals globally.

In the past he has taught at Shri Ram College of Commerce, University of Delhi, Delhi School
of Economics, Indian Institute of Technology (IIT) Delhi, Ahmadu Bello University (Nigeria),
ICFAI (Hyderabad) and Cleveland State University (USA) apart from being a visiting professor
at Harvard University, London Business School and over 100+ Universities Worldwide.

His research, writings, speeches, talks and interviews on All India Radio (AIR), BBC World
and TV have had an important bearing on government policies including change in the Budget
Timing from 5 pm to forenoon introduced by Mr. Yashwant Sinha, the then Finance Minister
of India, based on his article in Economic Times on 26th May 1998 (Editorial Page). Some of his other
fundamental research works on Full Employment Model through NLXs; Central Bank Digital
Currency; Kissan Credit Card; Money Laundering Act; KYC Norms worldwide have influenced
policy decision making.

He had contributed significantly to promote the field of finance in the last five decades
trough education and research. One of his most important contributions is to found the
prestigious INDIAN INSTITUTE OF FINANCE in 1987, without any government aid or
financing. The Institute has become a center of excellence and a base for scholarship in the
last 36 years. IIF Library houses over 58,000 volumes and more than 1,000 technical journals
and is depository library for over 25 Central Banks and International Agencies like IMF,
UNCTAD, OECD and others. IIF is unique and solely devoted to develop the field of finance
and financial economics. IIF was the 1st in the country to introduce Business Finance education,
to receive .EDU domain and feature amongst the Top 50 Global Research Organizations (TOI-
PTI). Finance, which was relatively unknown, got a boost and attained a place of prominence
after the establishment of IIF. Thus a shift in the focus of economics from welfare orientation,
state subsidies, high taxes and controls to financial economics, market orientation and wealth
generation was observed.

His another contribution to the field of Finance has been to start and develop a quarterly
journal of Finance - FINANCE INDIA at international level to promote research in Finance.
The journal started in 1987, is considered to be a leading journal of Finance and is indexed and
abstracted by 49+ Agencies/Institutions worldwide including SCOPUS, ABDC, UGCs, JEL,
Cabbels and others with a very High Impact Factor. Many research works published in Finance
India have found place in policy making decisions by Goverments and International Agencies
including Government of India. Finance India has been rated 3rd best worldwide by American
Statistical Association (B & E Index) and 1st by SJIF out of 23,000+ journals worldwide. It has
on its editorial board some of the most prominent experts from all over the world including
Nobel Laureates. He has single handedly with the support of the editorial board edited more
than 144 volumes. Each issue is about 400 pages published in time & regularly since 1987.

Dr. Agarwal was an original thinker and has had practical bias. Professor Agarwal’s research
indicates that theories and techniques of financial economics based on postulation of single
objective give erroneous and irrational results and have become outdated in the present era.

He had won several citations and awards and quoted widely in national dailies. His research interests were in the area of corporate finance, investment, public finance and international finance. Dr. Agarwal was honoured with Doctor of Economics (Honorary) by Tashkent Finance Institute (Uzbekistan) and Doctorem Honoris Causa (Honorary D.Litt.) by Szent Istvan University (Hungary). C. RANGARAJAN, Governor of Andhra Pradesh, 26th October 2001

I have gone through some of the articles therein and found them not only educative but also highly informative. Of particular interest to me was the use of mathematical and statistical techniques by some authors.

I have gone through some of the articles therein and found them not only educative but also highly informative. Of particular interest to me was the use of mathematical and statistical techniques by some authors.

**ETHICAL CODE OF CONDUCT**

Publication of an article in FINANCE INDIA (ISSN: 0970 - 3772) - an academic peer-reviewed journal - serves several functions, one of which is to validate and preserve the "minutes" of research. It is therefore of immense importance that these "minutes" are accurate and trustworthy. The act of publishing involves many parties, each of which plays an important role in achieving these aims. It therefore follows that the author, the journal editor, the peer-reviewer, the publisher, and the owner of Society-owned journals have responsibilities to meet expected ethical standards at all stages in their involvement from submission to publication of an article.

Indian Institute of Finance is committed to meeting and upholding standards of ethical behaviour at all stages of the publication process. We follow closely the industry allocations that set standards and provide guidelines for best practices in order to meet these requirements.

Below is a summary of our key expectations of editors, peer-reviewers, and authors.

1. **Ethical expectations**
   1.1 Editor(s) responsibilities
      i. To act in a balanced, objective and fair way while carrying out their expected duties, without discrimination on grounds of gender, sexual orientation, religious or political beliefs, ethnic or geographical origin of the authors.       
      ii. To handle submissions for sponsored supplements or special issues in the same way as other submissions, so that articles are considered and accepted solely on their academic merit and without commercial influence. 
      iii. To adopt and follow reasonable procedures in the event of complaints of an ethical or conflict nature, in accordance with the policies and procedures of the Society. Where appropriate, to give authors a reasonable opportunity to respond to any complaints. All complaints should be investigated no matter when the original publication was approved. Documentation associated with any such complaints should be retained.
   1.2 Reviewer(s) [Referee(s)] responsibilities
      i. To contribute to the decision-making process, and to assist in improving the quality of the published paper by reviewing the manuscript objectively, in a timely manner.
      ii. To maintain the confidentiality of any information supplied by the editor(s) or author(s). To not retain or copy the manuscript.
      iii. To alert the editor(s) to any published or submitted content that is substantially similar to that under review.
      iv. To be aware of any potential conflicts of interest (financial, institutional, collaborative or other relationships between the reviewer and author) and to alert the editor to these, if necessary withdrawing their services for that manuscript.
   1.3 Author(s) responsibilities
      i. To maintain accurate records of data associated with their submitted manuscript, and to supply or provide access to these data, on reasonable request. Where appropriate and where allowed by employer, funding body and others who might have an interest, to deposit data in a suitable repository or storage location, for sharing and further use by others.
      ii. To confirm/assert that the manuscript as submitted is not under consideration or accepted for publication elsewhere. Where portions of the content of the manuscript have been, or will be, published elsewhere, to acknowledge and cite these sources. Additionally, to provide the editor with a copy of any submitted manuscript that might contain overlapping or closely related content.
      iii. To confirm that all the work in the submitted manuscript is original and to acknowledge and cite these sources. To obtain permission to reproduce any content from other sources.
      iv. To declare any potential conflicts of interest (e.g. where the author has a competing interest (real or apparent) that could be considered or viewed as exerting an undue influence on the author's duties at any stage during the publication process).
      v. To notify promptly the journal editor(s) or publisher if a significant error in their publication is identified. To cooperate with the editor and publisher to publish an erratum, addendum, corrigendum notice, or to retract the paper, where this is deemed necessary.
   1.4 Publisher / Society responsibilities
      Indian Institute of Finance shall ensure that good practice is maintained to the standards outlined above.

2. **Procedures for dealing with unethical behaviour**
   2.1 Identification of unethical behaviour may be identified and brought to the attention of the editor(s) and publisher at any time, by anyone.
   2.2 Investigation
      i. An initial decision should be taken by the editor(s) or publisher, if appropriate.
      ii. Evidence should be gathered, while avoiding spreading any allegations beyond those who need to know.
   2.3 Minor breaches
      i. Minor misconduct might be dealt with / without the need to consult more widely. In any event, the author should be given the opportunity to respond to any allegations.
   2.4 Serious breaches
      i. Serious misconduct might require that the employers of the accused be notified. The editor(s), in consultation with the publisher, should make the decision whether or not to involve the employer in examining the available evidence themselves or by further consultation with a limited number of experts.
   2.5 Outcomes (in increasing order of severity, may be applied separately or in conjunction)
      i. Informing or educating the author(s) or reviewer(s) where there appears to be a misunderstanding or misapplication of acceptable standards.
      ii. A more strongly worded letter to the author(s) or reviewer(s) covering the misconduct and as a warning to future behaviour.
      iii. Publication of a formal notice detailing the misconduct.
      iv. Publication of an editorial detailing the misconduct.
      v. Formal retraction or withdrawal of a publication from the journal, in conjunction with informing the head of the author or reviewer's department or funding agency.
      vi. Imposition of a formal embargo on contributions from an individual for a defined period.
      vii. Reporting the case and outcome to a professional organisation or higher authority for further investigation and action.
