In the past he has taught at Shri Ram College of Commerce, University of Delhi, Delhi School of Economics, Indian Institute of Technology (IIT) Delhi, Ahmadu Bello University (Nigeria), ICFAI (Hyderabad) and Cleveland State University (USA) apart from being a visiting professor at Harvard University, London Business School and over 100+ Universities Worldwide.

His research, writings, speeches, talks and interviews on All India Radio (AIR), BBC World and TV have had an important bearing on government policies including change in the Budget Timing from 5 pm to forenoon introduced by Mr. Yashwant Sinha, the then Finance Minister of India, based on his article in Economic Times on 26th May 1998 (Editorial Page). Some of his other fundamental research works on Full Employment Model through NLXs; Central Bank Digital Currency; Kissan Credit Card; Money Laundering Act; KYC Norms worldwide have influenced policy decision making.

He had contributed significantly to promote the field of finance in the last five decades through education and research. One of his most important contributions is to found the prestigious INDIAN INSTITUTE OF FINANCE in 1987, without any government aid or financing. The Institute has become a center of excellence and a base for scholarship in the last 36 years. IIF Library houses over 58,000 volumes and more than 1,000 technical journals and is depository library for over 25 Central Banks and International Agencies like IMF, UNCTAD, OECD and others. IIF is unique and solely devoted to develop the field of finance and financial economics. IIF was the 1st in the country to introduce Business Finance education, to recieve .EDU domain and feature amongst the Top 50 Global Research Organizations (TOI-PTI). Finance, which was relatively unknown, got a boost and attained a place of prominence after the establishment of IIF. Thus a shift in the focus of economics from welfare orientation, state subsidies, high taxes and controls to financial economics, market orientation and wealth generation was observed.

His another contribution to the field of Finance has been to start and develop a quarterly journal of Finance - FINANCE INDIA at international level to promote research in Finance. The journal started in 1987, is considered to be a leading journal of Finance and is indexed and abstracted by 49+ Agencies/Institutions worldwide including SCOPUS, ABDC, UGCs, JEL, Cabbels and others with a very High Impact Factor. Many research works published in Finance India have found place in policy making decisions by Goverments and International Agencies including Government of India. Finance India has been rated 3rd best worldwide by American Statistical Association (B & E Index) and 1st by SJIF out of 23,000+ journals worldwide. It has on its editorial board some of the most prominent experts from all over the world including Nobel Laureates. He has single handedly with the support of the editorial board edited more than 144 volumes. Each issue is about 400 pages published in time & regularly since 1987.

Dr. Agarwal was an original thinker and has had practical bias. I have gone through some of the articles therein and found them not only educative but also highly informative. Of particular interest to me was the use of mathematical and statistical techniques by some authors.
